		Version No.: III valid from: 01.01.2021
	MAGNESIUM HYDROGEN DL-ASPARTATE TETRAHYDRATE	Replaces Version: II valid from 19.07.2019
		Copy:

1. Appearance

white crystalline powder or colourless crystals

2. Chemical name

magnesium hydrogen dl-aspartate tetrahydrate

3. Chemical formula

$(C_4H_6NO_4)_2Mg \cdot 4 H_2O$

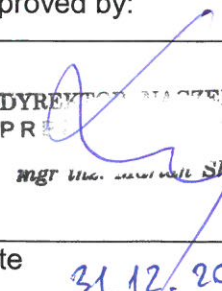

4. Molecular weight

360.60 g/mol

5. Quality requirements

5.1. Physicochemical requirements

No.	PROPERTY	Requirements	Analytical Method
1.	Appearance	white crystalline powder or colourless crystals	visual examination
2.	Identification A, C, D or B	positives	A – Ph.Eur. 2.2.7 B – Ph.Eur. 2.2.24 C – DAB D – Ph.Eur. 2.3.1
3.	Appearance of 2.5% water solution	clear and colourless	Ph.Eur. 2.2.1 Ph.Eur. 2.2.2 metoda II
4.	Assay (calculated with reference to the anhydrous substance), %(w/w)	98.0 + 102.0	Ph.Eur. 2.5.11
5.	pH of 2.5% water solution	5.5 + 7.5	Ph.Eur. 2.2.3
6.	Water (KF), %(w/w)	18.0 + 22.0	Ph.Eur. 2.5.12

2.	TYMC (total combined yeast/moulds count), cfu/g	≤ 10 ²	
3.	<i>Escherichia coli</i> in 1g	absence	Ph.Eur. 2.6.13

6. Period of validity

The product stored in accordance with item 8 meets the requirements for a period of 3 years.

7. Standard packaging

- unitary:

Polyethylene bag placed in a cardboard box containing 25 kg of finished product.

- summary:

Pallet wrapped with self-adhesive foil.

The labelling of each package includes the manufacturer's name, product name, net weight, batch number, date of manufacture, expiry date, information: "no special storage conditions required".

8. The storage conditions

In tightly sealed containers, in dry storage.

It does not require any special storage conditions.

9. Transport requirements

Covered means of transport.
